Anthropology and Contemporary Human Problems John H. Bodley

Resource depletion, global warming, escalating energy costs, poverty, conflict. As human life becomes increasingly complicated, cultural anthropologist John H. Bodley conceives a work that closes in on the social and environmental problems of our time and explores the deleterious global reaches of unsustainable growth in production and consumption.

Anthropology and Contemporary Human Problems addresses the contemporary reader interested in social science and history, environmental studies, globalization, and the political economy and reveals the development of humanity and our global prospectus for the future.
