**Mission Control, This is Apollo: The Story of the First Voyages to the Moon** Andrew Chaikin

July 20, 1969, marked one of the climactic moments in our history—the day Apollo 11 landed on the moon. But it is only one piece of a magnificent story. *Mission Control, This Is Apollo*, by the acclaimed Andrew Chaikin (author of *A Man on the Moon*, basis of the HBO miniseries *From the Earth to the Moon*), recounts space history from the Mercury missions through Apollo 17 and beyond. It is illustrated with stunning full-color paintings by astronaut Alan Bean, who walked on the moon with Pete Conrad on Apollo 12 and has devoted his post-NASA life to creating art. Handsome, informative, and dramatic, this is no textbook—it is the tale of humankind's greatest adventure in the last frontier: space.
