A great value! Two military manuals combine into one book. If you purchase both books separate you will pay more for the books plus shipping cost. A booby trap is an explosive charge cunningly contrived to be fired by an unsuspecting person who disturbs an apparently harmless object or performs a presumably safe act. A. This manual contains procedures, techniques, and expedients for the instruction of the soldier in the assembly, use, detection, and removal of boobytraps in combat. B. Included are descriptions and discussions of the design and functioning characteristics of standard demolition items; firing devices, explosives, missiles, hand grenades, mortar ammunition, artillery ammunition, and bombs. C. This manual also contains information on a variety of items and indigenous materials useful for improvising firing devices, explosives, and pyrotechnic mixtures for guerrilla warfare applications. D. Factory-produced boobytraps (dirty trick devices) are described. E. Safety measures pertinent to booby trapping operations are provided for the protection of troops from casualty. This manual contains detailed instruction, diagrams and illustrations to ensure excellent understanding of all aspects of boobytraps and improvised explosive devices. Map Reading and Land Navigation: Institution courses are designed to prepare the soldier for a more advanced duty position in his unit. The critical soldiering skills of move, shoot, and communicate must be trained, practiced, and sustained at every level in the schools as well as in the unit. The map reading and land navigation skills taught at each level are critical to the soldiering skills of the duty position for which he is being school-trained. Therefore, they are also a prerequisite for a critical skill at a more advanced level.
