Right Risk is about taking more deliberate and intentional risks in an increasingly complex world. It is about all the things that happen to you when you are planning for, engaging in, or running from, a risk. It aims to answer such questions as: How do I know which risks to take and which to avoid? How do I balance the need to take more risks with the need to preserve my safety? How do I muster up the courage to take risks when it is so much easier not to? How do I confront all those people who keep telling me what a mistake it would be to take the risk? And, most importantly, How do I make risk-taking less of an anxiety-provoking experience? (You'd probably take more risk if you just plain enjoyed it more, right?)
