Holding China Together: Diversity and National Integration in the Post-Deng Era

Holding China Together: Diversity and National Integration in the Post-Deng Era

Despite repeated predictions of collapse and disintegration, China has managed to sustain national unity and gain international stature since the 1989 Tiananmen crisis. Examining the sources and dynamics of the resilience, this volume's contributors reveal how China's leaders have adapted and reinforced key economic and political institutions. They also disclose that implementation of complex policies to regulate economic and social life (employment and migration, population planning, industrial adjustment, and regional disparities) has become more effective over time within a context of growing social and economic diversity.
