Journal of Economic Perspectives, Fall 2013

Journal of Economic Perspectives, Fall 2013

The Journal of Economic Perspectives fills a gap between the general interest press and most academic economics journals. It offers policymakers, educators, students, and practitioners a trove of well-written and well-chosen analytical essays that focus the lens of economic reasoning on topics across the social sciences.

Keywords:

economics, public policy, economic perspective, economic policy, economics general, economics education

It brings research topics into the mainstream before they appear in refereed journals, and informs and shapes debate on public issues. It further provides readings for classroom use; addresses issues relating to the economics profession; and exposes policymakers, students, and scholars to the power, utility, and beauty of clear economic insight.

Articles appearing in the journal are normally solicited by the editors and associate editors.
