Process Technology Equipment and Systems

Charles E. Thomas

Process Technology Equipment and Systems Charles E. Thomas

Process Technology Equipment and Systems provides an in-depth survey of the equipment commonly found in chemical processing plants and the chemical processing systems used in these plants. Much of the content of this new book was previously published in The Process Technology Handbook, the best selling textbook for process plant operators. Each chapter includes objectives, a list of the key terms in that chapter and their definitions, thorough discussion and explanation of the content of that chapter, chapter summary, and review questions. A glossary is included at the back of the book.
