## **Early Communication Skills for Children with Down Syndrome: A Guide for Parents and Professionals (Topics in Down Syndrome)** Libby Kumin

This title includes a book & CD-ROM.

Newly revised and updated, this compassionate and authoritative guide is based on Libby Kumin's thirty years of experience of working with children and adolescents with Down syndrome and their families. Dr Kumin draws on her vast experience to show parents how they can support and encourage their child's speech and language development from birth to age 6 (or when a child can form 2- to 3-word sentences). Parents and teachers learn how to work through characteristic challenges, including hearing loss, intelligibility issues, apraxia (difficulty planning oral-motor movements), or a slower pace of development. Families soon see that many children with Down syndrome are natural and willing communicators.

In a warm and conversational style, the author shares her professional expertise in parent-friendly terms. She uses specific examples of difficulties and successes to illustrate the concepts behind speech and language development, and includes the latest research supporting current early intervention and pre-school approaches that can be used at home and in schools.

This third edition features expanded information on the needs of children with apraxia, dual diagnosis of autism and Down syndrome, and updated terminology and information on special education law. An expanded chapter explains how technology and augmentative and alternative communication (AAC) can help with speech and language, foster communication, and provide inexpensive transitional language systems. Dozens of forms are now included on a CD-ROM to be used for assessment, developing treatment plans, and keeping detailed records of progress. Teachers, speech-language pathologists, and parents will love the convenience of printing multiple copies of forms and organising information for IEP meetings or periodic evaluations.

Check out the companion book, **Helping Children with Down Syndrome Communicate Better: Speech and Language Skills for Ages 6-14**.
