## **Automotive Technician's Certification Test Prep Manual** Don Knowles

This book prepares Automotive Technology students for ASE tests in all eight areas of automotive certification. All of the ASE tasks and explanations are listed in the book followed by an ASE-style question based on the task. Each chapter begins with a pretest to provide the student with an indication of the amount of study required to pass the ASE test. As in the ASE tests, some questions are accompanied by illustrations. The text includes a glossary to assist the student in defining difficult terms.
