“Bosses from hell” are giving U.S. workers the Monday blues. Gallup’s 2013 State of the American Workplace reports 70% of those surveyed either hate their job or are completely disengaged. Source: New York Daily News, June 2013 Whether you are the boss or one of the workers, this book was written for YOU! In today’s high pressure corporate environment, corporate executives, managers and workers have little time or patience with heavy work-loads, deadlines, policies or personality differences. The name of the game is “sink or swim”...which often applies to the boss as well as the workers. But the primary reason for the discontent may not be the work-load, as much as it poor communications and direction. The One Page Manager, is a manager’s and worker’s survival guide, which identifies and simplifies goals, priorities and tasks to insure that everyone is working from the same page and benefiting from their improved accomplishments. If you work for a company and use The One Page Manager system, the following applies:

- It can help you get a raise, promoted or both.
- It can help you keep your job in a struggling economy.
- It can help you get a better job in the future.
