One Equals Zero and Other Mathematical Surprises: Paradoxes, Fallacies, Mind Booglers Nitsa Movshovitz-Hadar, John Webb

Paradoxes and Problems to Intrigue Your Students One equals zero! Every number is greater than itself! All triangles are isosceles! Surprised? Welcome to the world of One Equals Zero and Other Mathematical Surprises. In this book of blackline activity masters, all men are bald, mistakes are lucky, and teachers can never spring surprise tests on their students! The paradoxes and problems in each One Equals Zero activity will perplex your students, arouse their curiosity, and challenge their intellect. Each counterintuitive result, false analogy, and answer that defies expectation will encourage students to look at familiar mathematical situations in a new light. By solving the paradoxes, your students will come to better understand both the possibilities and the limitations of mathematics.

From reader reviews:

Wayne Millican:

The book One Equals Zero and Other Mathematical Surprises: Paradoxes, Fallacies, Mind Booglers make you feel enjoy for your spare time. You can use to make your capable far more increase. Book can for being your best friend when you getting strain or having big problem along with your subject. If you can make reading a book One Equals Zero and Other Mathematical Surprises: Paradoxes, Fallacies, Mind Booglers to get your habit, you can get more advantages, like add your capable, increase your knowledge about some or all subjects. It is possible to know everything if you like start and read a reserve One Equals Zero and Other Mathematical Surprises: Paradoxes, Fallacies, Mind Booglers. Kinds of book are several. It means that, science publication or encyclopedia or other individuals. So , how do you think about this publication?

Jim Martin:

What do you concentrate on book? It is just for students as they are still students or this for all people in the world, what the best subject for that? Just you can be answered for that problem above. Every person has different personality and hobby for every single other. Don't to be pushed someone or something that they don't desire do that. You must know how great and also important the book One Equals Zero and Other Mathematical Surprises: Paradoxes, Fallacies, Mind Booglers. All type of book would you see on many resources. You can look for the internet methods or other social media.

Philip Raber:

In this 21st century, people become competitive in every single way. By being competitive today, people have do something to make these individuals survives, being in the middle of typically the crowded place and notice simply by surrounding. One thing that often many people have underestimated the item for a while is reading. Yes, by reading a e-book your ability to survive enhance then having chance to stay than other is high. In your case who want to start reading any book, we give you this particular One Equals Zero and Other Mathematical Surprises: Paradoxes, Fallacies, Mind Booglers book as beginner and daily reading book. Why, because this book is more than just a book.

Glenn Pryor:

Your reading 6th sense will not betray you actually, why because this One Equals Zero and Other Mathematical Surprises: Paradoxes, Fallacies, Mind Booglers book written by well-known writer who really knows well how to make book that could be understand by anyone who else read the book. Written with good manner for you, leaking every ideas and creating skill only for eliminate your personal hunger then you still uncertainty One Equals Zero and Other Mathematical Surprises: Paradoxes, Fallacies, Mind Booglers as good book not merely by the cover but also by content. This is one e-book that can break don't ascertain book by its deal with, so do you still needing another sixth sense to pick this particular!?! Oh come on your examining sixth sense already alerted you so why you have to listening to one more sixth sense.
