The Systematic Mistreatment of Children in the Foster Care System: Through the Cracks (Maltreatment, Trauma, and Interpersonal Aggression) Lois Weinburg

The Systematic Mistreatment of Children in the Foster Care System tells the stories of 10 children in the foster care system from diverse ethnic and cultural backgrounds and the efforts by advocates to find them permanent places to live, appropriate schooling, and other essentials they need to survive. The children's case studies highlight the difficulties in placing and maintaining them in healthy living situations with supportive educational, mental health, and other services. The book shows how children fall-sometimes over and over again-through the "deep cracks" that exist within and between the various agencies of the multi-agency system of care that was designed to help them.

Appropriate placement and services for children in foster care typically requires the coordination and collaboration of several agencies, including the juvenile court, child protective services (CPS), school districts, and departments of mental health (DMH). *The Systematic Mistreatment of Children in the Foster Care System* shows how these agencies frequently fail to meet their legal obligations to children in the system and what can be done to address these failures-and the outcomes they produce.
