Enacting European Citizenship

Enacting European Citizenship

What does it mean to be a European citizen? The rapidly changing politics of citizenship in the face of migration, diversity, heightened concerns about security and financial and economic crises, has left European citizenship as one of the major political and social challenges to European integration. 'Enacting European Citizenship' develops a distinctive perspective on European citizenship and its impact on European integration by focusing on 'acts' of European citizenship. The authors examine a broad range of cases - including those of the Roma, Sinti, Kurds, sex workers, youth and other 'minorities' or marginalised peoples - to illuminate the ways in which the institutions and practices of European citizenship can hinder as well as enable claims for justice, rights and equality. This book draws the key themes together to explore what the limitations and possibilities of European citizenship might be.
