In a concise and accessible 14-chapter format, *Essentials of Psychology, 4/e*, retains key features of Bernstein's, *Psychology, 7/e*, including Thinking Critically, Focus on Research, and Linkages. Combining extensive pedagogical support and emphasis on active learning, the text challenges students to "learn by doing"--to actively participate using materials from the text and to think about what they're learning as opposed to passively receiving written information. The Fourth Edition includes the latest information on research in the field. The text's integrated pedagogical system helps students master the material by supporting the elements of the PQ4R (Preview, Question, Read, Recite, Review, and Reflect) Study System.
